008th District

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. **Please ensure responses are specific and detailed.**

| PROBLEM SOLVING PRIORITY #1 | | | | | |
|--|---|---|---|---|---|
| Scanning | Priority Title | Robberies | | | |
| | Priority Type | <input checked="" type="checkbox"/> Violent Crime | <input checked="" type="checkbox"/> Property Crime | <input type="checkbox"/> Quality of Life | |
| | Source <i>Check all that apply</i> | <input checked="" type="checkbox"/> Calls for Service | <input checked="" type="checkbox"/> Community Conversations | <input type="checkbox"/> DAC Meetings | <input type="checkbox"/> Resident Survey Data |
| | | <input checked="" type="checkbox"/> Crime Data | <input type="checkbox"/> Community Interactions | <input checked="" type="checkbox"/> Beat Meetings | <input type="checkbox"/> Other: _____ |
| Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i> | <ul style="list-style-type: none"> Due to the success of the secondary market for high end smart phones, pedestrians walking through the community have become easy targets for robberies. Compared to the previous year, robberies of pedestrians on 815 and 821's Beats have increased by 123%. Analysis shows that the majority of these robberies are occurring near the CTA Orange Line station, with many of the victims walking to and from the public transit stop. | | | | |
| Analysis | Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i> | 1. Who is / are the victim(s)? | | | |
| | | <ul style="list-style-type: none"> The victims tend to be pedestrians walking to and from the CTA Orange Line station on Pulaski Road as well as students walking to and from Curie High School. There are also large clusters of robberies of pedestrians taking place along the commercial corridor on Cicero Ave. | | | |
| | 2. Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc. | | | | |
| | <ul style="list-style-type: none"> In most cases, the offenders tend to catch the victim off guard by approaching on foot or in a vehicle while the victim's attention is on their phone. The offender will display a weapon or use force to complete the robbery within a very short period of time. The offenders are often wearing dark clothing and a face mask to cover their identity and flee the area in a vehicle. | | | | |
| Typical Time of Day (select all that apply): | | <input type="checkbox"/> 1 st Watch | <input checked="" type="checkbox"/> 2 nd Watch | <input checked="" type="checkbox"/> 3 rd Watch | |
| 3. What is the location of this problematic activity? Use street names to delineate the boundaries below: | | <ul style="list-style-type: none"> Eastern Boundary: Pulaski Rd. Western Boundary: Cicero Ave. Northern Boundary: 43rd St Southern Boundary: 55th St. | | | |
| Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i> | <ul style="list-style-type: none"> The CTA platform, the long stretch of restaurants and small retail shops, as well as Curie High School each located in close proximity along Pulaski Rd creates a bustling atmosphere with numerous pedestrians populating the area each day. This provides a large pool of possible robbery victims walking the area while failing to pay attention to their surroundings. The offenders will patiently wait for the ideal circumstances to target an unsuspecting victim. The close proximity of the Stevenson Expressway as well as Archer Ave, gives offenders a | | | | |

Since the majority of the victims are looking at their phones when they are approached and the offenders are usually wearing masks, a good description or a positive identification is a difficult task for investigating officers.</p> | | | | | | | | | | | | | | | |
|---|--|--|---|--|---|--|--|---|--|--|--|---|--|--|--|--|
| <p>Response Strategy Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</p> | <p><i>Non-enforcement response (required):</i></p> <ul style="list-style-type: none"> Identify and create city service requests for tree trimming and street light repairs along Pulaski and Cicero Ave to ensure that the pedestrians have a safe and well-lit walking path. Partner with local businesses along the commercial corridors to utilize security cameras and ensure that they are working properly and capturing the best range of surveillance. Utilize social media and news affairs to spread awareness in regards to crime trends and patterns along with steps to take to avoid becoming a victim. | | | | | | | | | | | | | | | |
| | <p><i>Enforcement response (if applicable):</i></p> <ul style="list-style-type: none"> Implement directed robbery missions which will be completed daily by tact or rapid response cars on 2nd and early 3rd Watch hours, with the focus being the commercial corridors. Assign bike and foot patrols during the warmer months to increase the police presence in the area. | | | | | | | | | | | | | | | |
| <p>Root Cause Mitigation Explain how the Response Strategy directly addresses the root cause that was analyzed above.</p> | <ul style="list-style-type: none"> Increasing awareness in the community along with creating a well-lit walking pathway will decrease the likelihood of potential robberies. Mitigation Criteria

Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.

- Since there was such a dramatic increase in robberies (+123%) in the target area from 2019 to 2020, the overall goal will be to sustain a significant decrease in 2021 as well as a decrease in related call for service. The issue will be addressed when we see a consistent decrease over a long period.
- In order to truly determine whether this priority has been addressed, we will have to gauge the community that resides and works in the affected area. By attending community meetings and events and monitoring social media posts, we will truly be able to determine if community members feel comfortable walking through the neighborhood without fear of becoming a victim.

That is a 23% increase when compared to the same time frame in 2019. The vast majority of the vehicle thefts occurred along 63rd street between Kedzie and Western. The analysis shows specifically, that these thefts account for almost 20% of all motor vehicle thefts in the entire 8th District. | | | | |
| Analysis | Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i> | 4. <i>Who is / are the victim(s)?</i> | | | |
| | | <ul style="list-style-type: none"> Due to the large numbers of vehicles being taken in the target area, there is no specific type of victim. There has been a spike in recent thefts involving high end Dodge/Chrysler brand vehicles that have a keyless ignition. | | | |

If the vehicle is parked in a dark and isolated area, that would also be a good candidate for theft. In recent months, an auto theft pattern has emerged involving the theft of high-end Dodge Chargers and Durangos where the offenders would forcefully enter the vehicle and reprogram the ignition to start without the owner's key fob. Historically, the use of unsanctioned tow trucks to steal unauthorized vehicles throughout the 8th District has been an ongoing issue and has caused a significant increase in vehicle thefts reported. | | | |

| Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i> | <ul style="list-style-type: none"> Historically, the Scottsdale neighborhood has a small gang conflict between the Ambrose and the Krazy Getdown Boys (KGB's) which tends to flare up occasionally. In the last 18 months, this conflict has shown a more consistent level of gang violence and increased activity that has become a much larger issue. In the past year, weapons violations (UUW arrests and shell casing recoveries) have increased by 85%. There have been 4 gang related shootings this year in addition to 5 that took place last year. There have been 133 positive shot spotter hits in Scottsdale vs. 126 during the same time frame last year, which is a 6% increase. Along with those statistics, there have been several beat meetings, town halls and community conversations where the increase in recent gang activity was the main topic of conversation. Gang activity in Scottsdale was one of the top priorities on the 2020 District Strategic Plan. After analyzing the data and attending multiple community meetings, including the 8th District community conversation, it was evident that this is an issue has not been resolved and needs additional attention. | | | | |
| Analysis | <p>7. <i>Who is / are the victim(s)?</i></p> <ul style="list-style-type: none"> The residents of Scottsdale are the true victims of this priority. The community that resides between 77th and 87th/Pulaski to Cicero have had their property damaged by stray bullets and gang graffiti, their property stolen to support gang activity and had their freedom of living in a safe community taken from them. | | | | |
| | <p>8. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <ul style="list-style-type: none"> Traditionally, gang members will claim a geographical area as their territory and attempt to push the boundaries of that area, causing conflict with surrounding gangs. Once these conflicts are initiated, each group will begin marking their territory with gang graffiti, and attempt to defend it with gun violence. In order to fund the gang activity, most sell narcotics to generate revenue. The KGB's (Krazy Getdown Boys) are the primary gang residing in the Scottsdale area and have caused an increase in shootings, drug sales, gang disturbances and gang graffiti. If members of their primary rival gang (Ambrose) approach the Scottsdale area, the conflict intensifies between both sides which usually results in some type of violent activity. | | | | |

| Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i> | | <ul style="list-style-type: none"> The historical gang conflict between the KGB's and Ambrose is directly responsible for the majority of the crime in the Scottsdale area. Since the KGB's reside in Scottsdale, they are the root cause. A strong police presence and cooperation from the community will be a positive step to rid this gang from Scottsdale and hopefully solve this issue. | | | | |
| Response | Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i> | | <i>Non-enforcement response (required):</i> <ul style="list-style-type: none"> Collaborate with the Scottsdale Neighborhood Watch to locate known gang hangouts, problem businesses and troubled buildings in the area which gang activity occurs. Coordinate with SDSC and the tactical teams to identify and locate ranking members of KGB's in the area. Ensure that park district employees monitor any gang activity within Durkin, Rainy and Scottsdale parks and notify CPD if they observe any suspicious behavior. Create new block clubs and phone trees to help the community get organized. This will increase the flow of information to officers working in the area. | | | |
| | | | <i>Enforcement response (if applicable):</i> <ul style="list-style-type: none"> Daily gang suppression missions will be conducted by 1st and 3rd Watch rapid response cars. Tact teams will be assigned missions in the area whenever gang activity escalates. The park car will conduct daily park checks on 3rd Watch at Durkin, Rainey and Scottsdale parks. | | | |
| | Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i> | | <ul style="list-style-type: none"> A dedicated police presence along with a strong community alliance will help to put pressure on this gang and eventually force them from the neighborhood. If the gang members see that their actions have caused an uproar in the community, they won't be able to thrive with all of the negative attention they are causing. | | | |

| Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". The issue will be addressed when we see a consistent decrease overall gang activity during a long period.• In order to truly determine whether this priority has been addressed, we will have to gauge the community that resides and works in the affected area. By attending community meetings and events and monitoring social media posts, we will truly be able to determine if community members feel comfortable living and working in this area without fear of becoming a victim. |
