009th District

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. **Please ensure responses are specific and detailed.**

PROBLEM SOLVING PRIORITY #1					
Scanning	Priority Title	Robberies / Car Jacking's			
	Priority Type	<input checked="" type="checkbox"/> Violent Crime	<input checked="" type="checkbox"/> Property Crime	<input type="checkbox"/> Quality of Life	
	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input checked="" type="checkbox"/> Crime Data	<input checked="" type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings	<input type="checkbox"/> Other: _____
Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>Beat 914 has a historical influx of robberies due to the touristy / transient nature of the community. Beat 914 has consistently lead the district in robberies for a number of years. Reported robberies, 38 in total, thus far for the 2020 year are running parallel with the 2019 year. During the 2019 calendar year, 50 robberies were reported, compared to 47 in 2018. This was a dramatic decrease compared to 80 reported in 2017 and 94 in 2016.</p> <p>The reported number of car jacking's thus far in 2020 are 7. This represents a 133% increase compared to the same period for 2019 and 28.6% increase to 2018.</p>				
Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. <i>Who is / are the victim(s)?</i></p> <p>The victims are unsuspecting tourists frequenting the area due to the transient nature of the area. Business Owners suffer as potential customers do not feel safe and will not frequent the area.</p>			
		<p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Offenders normally approach on foot or exit a vehicle, while wearing dark colored clothing. Offenders have been found to conceal their identity by covering their faces. Offenders in the majority of cases have stated they have a weapon prior to demanding the victim's personal belongings and mostly flee using alley and expressway feeder ramps as their avenue of escape.</p>

Additionally, passengers awaiting buses or trains, are preoccupied and once again, not aware of their surroundings.</p> <p>Offenders are able to make good their escape for a number of reasons: accessibility to major expressways via feeder ramps. The area borders two police districts which causes delay in real time exchange of information on wanted offenders.</p>		
<p>Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i></p>	<p><i>Non-enforcement response (required):</i></p> <p>The 009th District will continue to work with business owners and community stake holders to ensure that patrons are encouraged to be aware of their surroundings.</p> <p>The 009th District will work with the mass transit unit and representatives for the CTA on a public campaign for patrons to be aware of their surroundings.</p> <p><i>Enforcement response (if applicable):</i></p> <p>009th District Tactical teams will run robbery missions during the identified times. The identified watches will determine the window of time when robberies spike on their watch and ensure that beat 914 is on beat during those peak hours, when manpower allows.</p>		
<p>Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i></p>	<p>Creating deterrents, while limiting the amount of loiters should reduce the crimes of opportunity. Upgrading video equipment should increase the amount of arrests and charging of offenders due to the increased ability to positively identify offenders.</p>

Seeing a continued and sustained decrease in the amount of documented incidents would ensure our strategies are working.</i></p>			
<p>Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i></p>	<p>The problem will be "addressed" when we see not only a decrease in the amount of documented incidents but an equal decrease in the amount of calls for service for robberies and car jackings.</p> <p>We must not be satisfied with a momentary decrease. The true success of these initiatives will be derived from the sustainable decrease in crime. Then we can truly state our strategies did in fact work.</p>

This represents a 48.7% increase from the 2019 calendar year. The area indicated has also sustained 3 homicides and 17 shootings for the 2020 calendar year to date. This represents a 7% increase in both numbers.</p> <p>Citizens have brought forth concern during community conversations, beat meetings, and positive encounters throughout the year.</p> <p>To complex the issue, the gang conflict driving these shootings and homicides crosses district borders between the 7th and 9th Districts.</p>

Sometimes, these family members become so irate, they in turn focus on their energies on seeking vengeance. These acts cause an endless circle of violence in these communities.</p> <p>Sadly, the actual victim(s) of these shootings do not realize their pain and suffering until it's too late. There has been a trend in which victims have used social media platforms while calling for acts of violence to take place upon them. Unfortunately these calls are answered far too often, and the outcome is a victim, now regretting the decision they made. The argument could be made these victims need mentoring, religion and structure in their lives, which should help them in seeing the error of their ways.</p>

<p>Root Cause</p>	<p>A lack of resources and poverty contribute to the problems of this area. Compounding this problem is a large number of single parent families with a breakdown of nuclear family relationships. Although the main contributor to the problem is generational gang conflicts. The current gang conflict between Latin Kings, Satan Disciples and Two Six is very complex as it involves fractions of these gangs which cross district borders. These conflicts start or “heat up” due to social media posts. Rival gang members will cross over into a gang’s “turf and call out” would be rivals, all while live streaming these events. These acts are met with violence, sometimes before the rival can leave the area. If not, these acts are seen as motivating factors in this gang now seeking vengeance.</p>

CHICAGO POLICE DEPARTMENT

<p>Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i></p>	<p>The correlation between District Intelligence Officers is imperative to combating this crime problem. If an act of violence takes place in one district, in which a rival is the suspected offender, history has shown that an act of vengeance will soon follow. Exchanging this information can aide officers in deployment, as we are no longer guessing which gang might be sought out for vengeance, but instead knowing which gang is targeted. As a result our efforts can be seen as a true deterrent.</p>

Assessment Plan	<p>Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Then, list any other quantitative and qualitative outcomes that you will use to track progress.</i></p>	<p><i>Focus Metric (refer to the District Guidance Document for a list of aligned metrics):</i></p> <p>Decrease in the amount of calls for service regarding shots fired Decrease in the amount of calls for service regarding a person shots Decrease in the amount of documented aggravated batteries Decrease in the amount of documented homicides</p> <p><i>Additional Metrics: Continuous submission of city service requests concerning gang graffiti and street lights out</i></p>			
	<p>Follow-Up Plan <i>Explain how the District will follow-up to ensure that the Response Strategy is having the desired impact</i></p>	<p>Over what time horizon will the Response Strategy be implemented? (select one)</p>	<p><input type="checkbox"/> 1 to 3 months</p>	<p><input checked="" type="checkbox"/> 4 to 6 months</p>	<p><input type="checkbox"/> More than 6 months</p>
	<p><i>How frequently will District personnel follow-up to ensure the Response Strategy is having the desired impact?</i></p> <p><i>In order to analyze the strategies being instituted to combat these crime issues a number of factors will have an unintended effect. Weather is an obvious factor in deterring crime. Additionally, acts of civil unrest and redeployment of officers will also have repercussions. In order to have a clearer picture into whether or not our strategies are in fact working, a period of 4-6 months would be optimal. Seeing a continued and sustained decrease in the amount of documented incidents would ensure our strategies are working.</i></p>				
<p>Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i></p>	<p>The problem will be addressed when we see a significant decline not only in the amount of calls for service but in the amount of documented incidents. Although we must also keep in mind that success can only be attained if the documented strategies continue to work and show steady declines. Otherwise, independent variables could be responsible for a momentary decline.</p>
